The Braswell Arts Association

In 2015, Armando and Lisa began to build an arts community in Basel where dancers of all levels and all body types could train in a supportive and pro professional environment. This idea has since expanded and in 2017, the couple founded the “Braswell Arts Center” – a space for innovation and collaboration in all art forms located in Basel, Switzerland. In 2019, the pair continued their mission with the founding of the “Braswell Arts Association” a non-profit arts organization dedicated to supporting pre-professional dancers as well as emerging and established artists. Through arts education and exchange, Armando and Lisa hope to encourage collaboration and the creation of new works of art and to promote networking and entrepreneurship within the local and international arts community.

PATHS Dance Ensemble Brooklyn

PATHSDANCE's journey from Brooklyn, New York to Basel, Switzerland is not merely a one-time project; it represents a stepping stone towards a greater vision. Through #BrooklynToBasel, we aspire to create lasting impact and foster opportunities for children. By offering transformative experiences that combine travel and the arts, we aim to build

bridges and open doors for young individuals from diverse backgrounds. This initial endeavor serves as a catalyst for future initiatives, demonstrating that geographical limitations should never hinder a child's potential. With each child, we hope to continue breaking barriers, providing access to training, mentorship, and cultural immersion for those who might not otherwise have such opportunities. Our mission is to make a lasting difference in the lives of these children and empower them to pursue their dreams.

A Future to Shape

While we have achieved remarkable things in Basel, there is still work to be done. Our vision for a program that shapes the future of dance continues to grow, but it requires support to fully come to fruition. We want to expand our efforts to foster the next generation of dancers.
